

Sprint 1 Report - Client-Server Messenger App

Nithin Singhal - Product Owner
Zachariah Hyman - Scrum Master
Jesse Rodarte
Brad Byun

Actions to Stop Doing

- Team was in agreement everything so far has gone smoothly; Had a slow start but the work we managed to get done went smoothly, team is still fine with meeting times, responsibilities, etc.

Actions to Start Doing

The team should start doing more of the following things:

- 15-minute Standup Meetings to sync team members on what has been done and what needs to be done
- Assigning story points before starting sprints, not during them
- Creating pull requests for team members to review

Actions to Keep Doing

- Keep the repository up to date
- Create separate branches for each commit to keep track of what has been done for each task
- Continue to meet up to meetings on time

Stories Completed

- design Log in interface
- Make Github repo
- flask setup
- react setup
- configure github
- Design Docs: Introduction

Stories Not Completed

- log in API design
- messaging interface design
- message api design
- Design Docs: Backend
- Design Docs: Frontend
- Design Docs: Delivery Plan

Work Completion Rate

- 6 user stories completed
- 19 estimated ideal work hours completed
- 14 days in the sprint

Burnup Chart (Sprint 1)
